### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

2. Authorization for this examiner's amendment was given in a telephone interview with Robert Freed on 21OCT04.

3. The application has been amended as follows:

Claim 1:

Line 19, "engagement member" has been changed to --side rail--.

Claim 7:

Line 20, "side rail" has been changed to --engagement member--.

4. The following is an examiner's statement of reasons for allowance: the prior art does not show or make obvious that the Applicant's receiving surface engages the radial engaging surface in a plurality of spaced apart locations proximate each engagement member on the side rails.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

5. Examiner notes that the Information Disclosure Statement filed 24SEP04 introduces an ACCESS Roll-up Cover Owner's Manual from 1996 (owned by the current assignee; AGRI-COVER, INC.) and that the end plate includes a T-shaped channel, yet the Examiner cannot

Art Unit: 3612

discover any reference to a locking member employed within this end plate channel. After consultation with the Applicants' representative, it was determined that the end plate is made of an extruded material and is identical to the front plate, which does employ the T-shaped channel for a fixed bolt to solidly attach the front plate to the front wall of the truck bed.

6. Examiner agrees that the U.S. Patent No. 6,568,740 to Dimmer and U.S. Patent No. 6,575,520 to Spencer are not prior art with respect to the present application and are only included as references to the current art.

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Paul A. Chenevert whose telephone number is 703-305-0837. The examiner can normally be reached on Mon-Fri (8:30-5:00).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Glenn D. Dayoan can be reached on 703-308-3102. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
